Delivering comprehensive care

THE CHALLENGE

Treatment and support for addiction are often fragmented, making it hard for people to get the holistic support they need to recover and thrive.

OUR IMPACT

We design integrated services and pathways of care so people experiencing addiction can access the full support they need.

For more information, visit turningpoint.org.au/30-years-of-impact/comprehensive-care.

Comprehensive inpatient withdrawal support

Since 2018, we've delivered Victoria's first hospital-based withdrawal and community stabilisation service (20 beds), offering 24/7 medically supported care for complex alcohol and drug withdrawal.

Turning Point joins Eastern Health

In 2009, Turning Point became part of Eastern Health, one of Victoria's largest public health services, expanding reach, strengthening integration and improving care for people experiencing addiction.
