Driving clinical innovation

THE CHALLENGE

Addiction is treatable, but recovery depends on access and care driven by innovation and the best available evidence.

OUR IMPACT

We drive research to improve and create evidence-based, innovative treatments that transform practice and outcomes.

For more information, visit turningpoint.org.au/30-years-of-impact/clinical-innovation.

Pioneering novel interventions

We continue to lead world-first research into digital tools, apps, and distance-based treatments, from brain-training to online support, to change behaviour and reduce harmful use.

Advancing addiction treatment

Over three decades, we've conducted 30+ clinical trials of new medications and psychological therapies, testing their effectiveness and translating evidence into practice.
