Influencing policy and system change

THE CHALLENGE

Policy and treatment systems often fail to meet the needs of people with addiction or fully protect the wider community from the harms of alcohol, drugs and gambling.

OUR IMPACT

We drive reforms through advocacy and policy leadership that embed evidence-based solutions that reduce harm and expand access to care.

For more information, visit turningpoint.org.au/30-years-of-impact/policy-change.

National Ambulance Surveillance System (NASS)

Starting in Victoria in 1998, NASS is now a national, world-first system tracking alcohol and drug harms in near real time to inform services, systems, and policy.

Collaborating for change through ACV

As a founding member and now coordinator of Alcohol Change Victoria, Turning Point drives collaboration to advance evidence-based policy and reduce alcohol harm.
